### Terms and Conditions (Full details can be found on our web site)

Goods are offered on an invitation to buy basis not a right to sell. We measure and weigh all items accurately but please allow a reasonable tolerance for varieties in our supply.

Our Privacy Policy is that we will only record the details necessary for the completion of your order and **NEVER** reveal this information to any 3rd party.

Prices are quoted in Pounds Sterling including UK VAT at the prevailing rate (17.5% as of November 2008) and are subject to change without notice.

Payment Methods accepted are American Express, Visa, Mastercard, Delta, Switch, Solo, Electron, Cheque, Bankers draft or Postal orders in pounds sterling drawn on a U.K. bank. You can also transfer funds directly to our U.K. bank account in Sterling or Euros.

If the delivery address differs from the cardholder address when paying by credit or debit card for the first time we will charge an extra fee of up to £1 to perform additional security checks to help prevent card fraud.

Supply is subject to and shall be interpreted in accordance with the laws of England and the Parties hereby subject to the exclusive jurisdiction of the English Courts thereof.

We are very confident that you will be extremely satisfied with our products. Nevertheless, our returns policy is in accordance with the distance selling regulations so that you are entitled to return goods, at your own expense, within 10 days of receipt. Personalised goods are exempt.

Your statutory rights as a consumer are not affected by any of our terms.

### Delivery of orders

**Please sign all your courier delivery receipts UNCHECKED**  
(If TNT sign as **DAMAGED**).

When you place your order we will endeavour to have it ready for the delivery agent to collect at 3pm the next working day. There is a packing fee of £5 applied to all orders and this includes a 2 working day delivery service to UK mainland addresses (as per delivery agents terms and conditions). Additional fees apply for next day, timed deliveries before 1pm, an afternoon delivery, non UK mainland or overseas addresses. Our responsibility for goods in transit ends at the boundary of our premises.

Personalised goods or large items requiring alteration or special packing attention are subject to delay according to workload at the time of your order but our customer service team will endeavour to keep you advised of any significant hold ups.

If you want to avoid the high cost of buying a quality roulette wheel set for your party at home then we can offer you the option to rent a pack containing all the necessary parts. We also provide instructions and rules to run all the hire games but if you think that will be too difficult then you can book ex-casino staff to operate the hired games. We charge a booking fee of £10 for finding such staff on your behalf and you'll usually need to pay them directly £50 to £75 for a standard date depending on location and time of year.

If you want more than a basic set that includes a felt cloth 180 x 100cm (6 x 3'3") and 45cm (18") wheel then you can upgrade to a 60cm (24") wheel for an extra £50 or a 270 x 150cm (9x5') baize cloth for an extra £25. There are several other casino games that you can also hire.

The hired items are usually sent 2 days before the date of your event, to allow time for rare courier or packing mistakes to be rectified. Collection is normally arranged the day after the event. You can request an earlier delivery if you plan to have several practices but this is subject to availability. Extensions can be arranged for an extra fee.

Goods must be returned in reasonable condition. Any significant damage or losses are chargeable at the full replacement value.

Surcharges may apply for late bookings that include croupier or any dates in December.

**Only available in the UK.**

**No VAT** is charged on these items as they are operated by a non-VAT registered third party appointed by Poker Shop.

# ◆ Folding poker tables

## Oval Table with Cushion Rail 3 section

This 3 section table is joined with 3 hinges on each of the 2 folds that make this the best of its kind in the marketplace. The table measures 210 x 110 x 5cm (82 x 42 x 2") when laid flat and comes complete in a carry bag with a shoulder strap making it easy to transport. The padding around the edge is very thick and the underside of the table has a black vinyl covering that finishes off this well constructed product

Code	Type	RRP
TAP330	Without Cup	£80.00
TAP331	With Cup	£90.00

## Octagonal 2 section

A high quality plywood product that measures 122cm (4') across when laid flat. It folds once so is in two sections and has an excellent plain green covered material tabletop, Black vinyl backing on the reverse adds considerable strength to this item. Also included is a bespoke protective black carrying travel bag with lengthy handles that can go over the shoulder. This product does not have any chip / drink holder trays because we found the majority of our customers find them a hindrance. Most players prefer to stack their chips vertically in a position that suits them, The drink cup holder is nothing more than a fixed drinks coaster and the players comfort is inhibited by the tray itself whenever the need to lean on the table occurs. Cheaper alternatives are available but these are made of chipboard and covered in cheap felt that are not as hard wearing as this product.

Code	RRP
TAP200	£40.00

## Folding Table 2 section with folding legs

This easy to transport table measures 180 x 105 x 8cm (72 x 42 x 3") and comes complete with bag that has shoulder strap carrying handles. The padding is very thick and two central single folding metal legs give this table the sturdy base that any folding table requires to be as safe as is reasonably possible.

TAP220	Without Cups	£120.00
TAP221	With Cups	£130.00

# ◆ Poker tables

## Kidney shaped Poker Tables

These tables are the best we have to offer. Ideal for poker rooms, casinos or extravagant home games. All the tables shown here are kidney shaped with an inlet around an oval that enables a dealer to reach a little more comfortably around the table.

The standard size table measures 250 x 125cm (8 x 4') and comfortably seats 10 players plus the dealer depending on the chair widths.

Around the edge of the table there is a black upholstered thick foamed rail that makes it comfortable for players to rest their arms on.

Under the tablecloth we put a fine foam layer to make a softer playing surface which enables players to handle their cards and chips more easily. The table cloth itself is high quality Dark Green baize with a mushroom shaped yellow betting line. There are options below to change colours.

All tables featured here come with a black bumper rail that is removable making layout changes and rail replacement as effortless as possible. The colour of the rail can be changed if required.

Nearly everything about these tables can be modified as they are made in our own in house workshop. Call to discuss your needs further if the following options don't cover what you require:-

**Folding Metal Legs** - The legs are properly bolted through the table top in our UK workshop making them very secure. These tables are the quickest to pack away and the slimmest profile for storage.

**Arc Pedestal Legs** - The legs are bolted to the table top in our UK workshop using special fixings to make it a completely solid construction. They can be removed in a few minutes for storage needs.

**Mahogany H Legs** - This is the most elegant leg option for our poker tables. Made by hand in the UK these legs are designed like casino table legs and finished to a high standard. Table tops are secured to the legs by slots fixed to the table tops. Brackets could be applied for an extra fee.

**Small Drop Box** - To securely fix item TAA101 measuring 23 x 13 x 13cm (9 x 5 x 5") with a money slot and pusher add £75.00

**Standard Drop Box** - To securely fix item TAA105 measuring 32 x 21 x 21cm (12 x 8 x 8") with a money slot and pusher adds an extra £100.00

**Cloth colours** - There is no charge to change to Dark Blue, Burgundy or Medium colour Green baize subject to stock availability. We can also provide a full colour printed cloth as per most table photo examples but this adds £190.00 to your costs. See notes below about artwork requirements and if you want to order this direct on our web cart please change the first 3 letters of the codes below from TEX to TCP.

**Dealer Tray** - We can add our standard plastic poker tray that has space for about 350 chips and 2 packs of cards for an extra £25.00. This also modifies the upholstered rail to give the dealer better access to the tray as shown in one of the example photos. If you want to order this direct on our web cart please change the last digit of the product code from 9 to an 8.

**Upholstery Colour** - Can be altered to your preferences, an example swatch shown below. For one we estimate an extra £50.00 but we would make a specific quote once we know the colour required and check our supplier's availability.

Code	Tabletop Legs	RRP
TEX009	None	£325.00
TEX029	Metal	£450.00
TEX059	Arc Pedestal	£500.00
TEX049	Mahogany H-Leg	£700.00

**For customised layouts change  
TEX to TCP & add £190.00 to RRP**

### Custom Design Artwork & Delivery

You will need to provide us with details of your colour preferences for cloth and lines and provide files for any logo or artwork you want us to use (preferably in .EPS format). If we have to design something for you or alter artwork provided we will advise you of any additional charges prior to production. It would be unusual for this charge to exceed £50. Delivery is usually delayed for at least 14 days after artwork approval but this is dependent upon our factory work load at time of order.

## Poker Bags

This bag is large enough to take all the tabletops shown on this page. The material used is the same thick strong plastic that is used on the sides of a lorry and is very water resistant. It has a heavy duty zip on the long side and this goes a short way down either side to allow easy access. Four carrying handles are provided to assist careful transportation.

# ◆ Plain poker chips

*All the chips shown here are standard casino size;  
40mm diameter, 3mm thick.*

Most people select the 11.5gm weight since it is the closest replica of those you find in real casinos. Due to high production quantities this variety offer the best value.

Heavier and usually more colourful 14gm chips are more expensive to manufacture and so have gained the reputation of being better than the 11.5gm.

The lightweight single colour 4gm is the most economical chip and often used for high quantity budget productions or by schools where weight may be a consideration for children. They mostly have a glossy finish unlike all other chips that are more of a matte finish.

The 8gm clay chips are particularly recommended to be used as roulette colour as the single colour mould makes them easier to distinguish from 11.5gm two colour cash chips and the lower weight is ideal for fun casino transportation.

Note that during the many years of supplying these products we have found slight differences in shades supplied by our manufacturer. If you top up a set at a later date you may not get an exact match. If this is not acceptable then we can offer part exchange for your old chips to satisfy your demands but it is subject to individual negotiation. Please call for further details.

Prices shown are per chip and usually sold in packs of 25.

# ◆ Numbered poker chips

*If you have an alternative preference for colour or number combinations please call.*

Most of the chips we have supplied through the years have been printed using the same size, typeface and gold colour. More recently we have added some full colour printed sticky label chips that have fixed colour number combinations. We can arrange to print all of the chip varieties personally shown on this page with your own artwork or create a design for you. There are more options for this on the next page.

Usually supplied in packs of 25 but prices are shown per chip.

When we conducted research into chip colour and number combinations in real casinos in 1998 we could not find any evidence that there was a set pattern of allocating values to colours. We also checked other suppliers (mainly in America at that time) and the only common observation was that nearly everyone used red for 5's. So, we made up our own system that a lot of other suppliers have subsequently copied and often quoted as being the standard casino system. Whilst we find this very flattering, to our knowledge it is completely untrue!

# ◆ Customised poker chips

## Full Colour Printed Chips

If you seek the most prestigious or secure type of chip in the poker market today then look no further than these fully customised 40mm ceramic 10gm chips. They can be printed in full colour over the whole face surface on both sides of the chip. You can also design something to go around the edge of each chip on the rim. Note that the unique process used to make these chips binds the ink into the material itself at production, making it a durable product and very hard to create forgeries.

If the design of the print you want is provided electronically in an editable .eps format (any credible graphic studio will be able to do this for you) then we won't charge anything for the nominal amount of time that we have to spend to prepare your design for manufacture. If you would like us to design something specifically for you then a basic artwork fee will apply. With extremely complicated specifications this charge can increase but we would check you accept our estimate before starting such work.

**Code MCP404 RRP £25.00**

To print your design onto the blank chips our supplier charges for the time taken setting up their equipment for production of each job but for large quantities in excess of 5,000 this is usually waived.

**Code MCP402 RRP £100.00**

This fee applies for production of each chip. Quantities in excess of 1,000 per design qualify for a discount. Price is per chip.

**Code MCP401 RRP £0.42**

**Please allow 2-4 weeks for delivery from final approval  
Faster options for smaller quantities coming soon.**

## Single Colour Printing

Most of the plain chips in our range can be printed with your company logo, personal initials or a combination. These chips can be produced within a few days but delivery times vary according to work schedules at the time of your order.

The charges for this service are calculated according to your individual needs. Please feel free to ask for a quotation.

If the design of the print you want is simple text or you can electronically send your own .eps file that is compatible with our software then we won't charge anything for the nominal amount of time that we have to spend to prepare your design for plate production. If your artwork is provided in anything other than an editable eps format or you ask us to design something for you then a basic artwork fee will apply but we will notify and check that you accept our estimate before starting any such extra work required. **Code HTF004 RRP £25.00**

To print your design onto a chip we have to get a plate made by another company. This takes at least 24 hours and if you have two or more different designs you will need more than one plate. **Code HTF002 RRP £50.00**

Once we have the plate, it needs to be set up on our machine that prints the chips. This can take a little time because each design and chip type can require different pressure, dwell time and heat to get the best result possible. We may also waste a few chips perfecting the final print. **Code HTF003 RRP £25.00**

The standard colour for printing chips is GOLD but there are a variety of other plain or metallic colours that can be selected. **Code HTF005 RRP £25.00**

If you want to make your chips more difficult to copy then we recommend using our hologram foil that will help with this problem. **Code HTF008 RRP £99.00**

This is the print charge for one side of each chip you require. If you want double sided prints then you will need to order two times the number of chips that you are printing (unless we are printing a logo onto standard numbered chips that already have one side printed). Price is per chip impression. **Code HTF001 RRP £0.10**

To get a brilliant white or if the chips are for frequent poker tournament use then we recommend double printing your image to make them last longer. Price is per chip **Code HTF011 RRP £0.05**

If your order is very urgent then subject to other work commitments at the time of the order, you can pay an express fee to get your plate manufactured urgently and start printing at the earliest possible opportunity. With large quantities (over 5000) the individual chip print price may also increase to cover staff overtime rates to achieve your objectives. We have frequently organised and can provide a quotation for immediate courier collection to deliver your order directly upon the completion of production. **Code HTF006 RRP £50.00**

**Don't forget you also need to include the cost of chips to print on !**

# ◆ Customised poker sets

All our customised poker sets include:

- ◆ 1 aluminum 500 case
- ◆ 500 poker chips up to 5 designs and colours
- ◆ 2 high quality packs of playing cards
- ◆ 5 red dice
- ◆ 2 dealer buttons 50mm diameter
- ◆ 2 big blind buttons 50mm diameter
- ◆ 2 little blind buttons 50mm diameter
- ◆ 1 hour of our in house artist's attention to your personal design requirements (extra hours will be advised if required and charged at £25 per hour)

After receiving your order, our artist will contact you to discuss the design specifications or you can e-mail that person at [art.work@poker-shop.co.uk](mailto:art.work@poker-shop.co.uk)

There may be extra charges for more than 5 different artworks. Please allow 21 days for delivery, from artwork approval.

The delivery speed can be improved but the advertised standard price is for batching orders together and this takes advantage of any spare staff time.

Working to tighter deadlines could create extra costs for one off small orders with third party suppliers and staff overtime to avoid conflicts with other customer commitments. You are welcome to call and check current delivery schedules.

**For quantities higher than 5 discounts will apply on a sliding scale especially with long delivery deadlines. Please call with your quantity and timescale for a specific quote.**

## Hot Foil Printed Chips

If you require a low volume of branded poker sets urgently, then the fastest solution will be a combination of plain poker chips, hotfoil printed, in a case selected from the range stocked in our warehouse.

## Numbered Chip Sets for Tournaments

These poker sets have been designed specifically for people running re-buy, double chance or freeze out tournaments. The set includes numbered chips that have been printed with the values 25, 100, 500 and 1000. This configuration is based upon our own experience of officiating tournaments for charity and corporate entertainment. Each set of 500 chips should cater for up to 21 players when following our recommendations about starting stack and re-buy values. A printed set of tournament rules is also included.

In addition to this set we would recommend that you purchase a 100 chip tray for each table in case you have to move a player with a stack of chips larger than your hands can carry. You might also require additional higher value chips if you have a cheap or long re-buy session.

## Daniel Negreanu's Power Hold 'em Strategy

Introduction by the well respected Avery Cardoza praises this as one of the best 3 poker books. First chapter is by Evelyn Ng and describes a powerful strategy for complete beginners to no-limit Texas Hold 'Em tournament play (basic understanding of the Hold 'Em required). Other contributions from Erick Lindgren, David Williams, Todd Brunson (Doyle's son), Paul Wasicka and of course the man himself.

## Plain Poker Cloth

We have two types of material currently available. One is a wool cotton mixture and the other is polyester. All material is sold by the metre so if you order 2 you will get 2m x the width that allows you to order a long enough piece for your tabletop. If you deal cards by sliding them across the tabletop then you should use wool because static prevents this method on polyester.

## Bicycle Make

Bicycle playing cards are made from a strong cardboard material with what they describe as an Air-Cushion finish.

Cardboard cards are more suited for blackjack but are preferred by some poker players. Magicians seem particularly keen on this brand for performing their tricks. Measure 62mm (2½") wide.

Code	Colour	RRP
CAN174	Red	£2.25
CAN274	Blue	£2.25

## Star Design

These 62mm (2½") wide plastic playing cards are the best we have found in the market today. The thickness of plastic makes them more resistant to marking than any other cards we have experienced. They are extremely resistant to liquid spills and handle very well. Each wide pack comes shrink wrapped in a cardboard tuckbox and the standard 52 deck contains 2 jokers.

Code	Colour	Size	Index	RRP
CAN122	Red	Wide	Super	£3.00

Code	Capacity	RRP
CAA604	1-4 Decks	£9.00

## KEM Brand

These cards are regarded by many as the top brand in this market. They are made of cellulose acetate - an expensive extruded material that has excellent properties for plastic playing cards. These are available in dual packs of wide 62mm (2½"), 2 corner super index, arrow design.

Code	RRP
CAN072	£20.00

## Oversized Cards

A full brand new deck of playing cards 30 x 21cm (12 x 8") - great for your own game of higher or lower with the kids.

Code	RRP
CAN931	£7.50

## Used Las Vegas Cards

Every day thousands of packs of high quality playing cards are used for a short period of play in real Casinos throughout the world. Most of the American casinos re-pack and sell these cards to the general public. Stock varies so please check availability before ordering a specific type otherwise we will substitute the closest alternative. All these cards are 62mm (2½") wide.

# ◆ Personalised cards & cases

## Personalised Playing Cards

There are three different options for you to choose from that dependent upon the urgency and the type of material required.

**1-2 weeks** : We can only offer cardboard cards that are produced in the UK with a plain or fully printed tuck box carton. Minimum quantity is 20. All decks are supplied as 52 standard court plus 2 jokers, standard index but you can personalise the court cards.

**3-5 weeks** : This is a more cost effective option using our overseas factory that provides you with a better quality cardboard or high quality plastic playing card. These can be shrink wrapped or provided in a tuck box carton that you can personalise. You can choose between narrow 57mm (2 1/4") or wide size which is 62mm (2 1/2"). The minimum quantity for cardboard is 500 and for Plastic 1000. All decks are supplied as 52 standard court plus 2 jokers but you can personalise the court cards for an extra fee. The index can be standard, super size or four corners. Additional cards (like hands of poker) can also be arranged.

**Since there are so many different options please call for a quotation.**
